Familiar Faces Fiesta

The Hon'ble Vice Chancellor, Prof. Sangita Srivastava, Chairperson, University of Allahabad Alumni Association (UoAAA), along with Prof. Heramb Chaturvedi, President of the Association, are ready to welcome you all to your very own alma mater, i.e., the University of Allahabad. Let us get together at a fiesta to take a pledge of eternal togetherness at Allahabad University.

About the University of Allahabad: Established in the year 1887, the University of Allahabad stands tall as an academic institution with a glorious legacy of over 137 years. As the fourth-oldest university in India, it began with the aim of creating an institution of liberal learning with a cosmopolitan outlook. The institution, ever since the early course of its history, has been successful in acquiring the status of a prominent citadel of higher education and learning.

Keeping its commitment to value addition at both local and global levels, the University, inclusive of all its eminent departments and historic residential hostels, has provided a framework of unique character and culture pivotal in providing an atmosphere conducive to the development of the *Allahabadi* network of its alumni and current students. The institution can rightfully boast of having the most illustrious list of luminaries produced in comparison to any other institution in the country. The runaway success of the alumni of the institution in all walks of life has been phenomenal, be it in the fields of arts, sciences, judiciary, civil services, music, politics, governance, business, etc. The University of Allahabad Alumni Association provides a platform where we can meet regularly to discuss the progress of our institution, which has made us what we are today.

With the noble aim and resolute intention of creating a lifelong and worldwide community of AU's alumni, we are setting out to organise an alumni get-together at the University of Allahabad, Senate House Campus. It would be a two-day festivity of sharing memories, music, dance, food, exhibitions, demonstrations, workshops, and many more events that would be a treat to your eyes.

April 27–28, 2024.

Venue: University of Allahabad.

The association aims to:

- To serve as a conduit between the alma mater and its alumni, ensuring that the bonds of gratitude and affection may remain strengthened even after the flow of time since they left the campus to set out for the world
- To foster a strong and enduring connection between our esteemed alumni and the university
- To recognise that the alumni of our university can offer a great diversity of ideas, skills, and abilities that should be acknowledged and engaged to benefit the present-day students of the university, and
- To encourage alumni to support the institution through educational opportunities, volunteer efforts, and financial commitments.
